About Me

I'm a Full Stack UX/UI Designer with a background in advertising design and frontend experience. I combine strategy, human-centered thinking, and technical skills to create intuitive and scalable digital solutions. I've designed products and services in healthcare, tourism, environmental, and tech sectors, applying methodologies like Design Thinking and Lean UX. I'm proficient in design tools and languages such as HTML, CSS, JS, Tailwind CSS, React, Astro, and WordPress, collaborating effectively with development teams and clearly communicating design processes.

Experience

- April 2024 - Sept 2025

UX UI Designer

Moon Hi S.A.

In my role as a UX/UI Designer, I led the design of a new digital product from the ground up through its MVP launch. I designed the branding, information architecture, and interaction, aligning business strategy with user needs. I collaborated with both design and development teams, implementing components in HTML, CSS, JS, and Figma to validate functional prototypes and ensure a market-ready, consistent user experience.

- January 2022 - December 2023

Web Designer and Frontend Developer

Desarrollo y Soluciones S.A.

In a previous role as a Web Designer and Frontend Developer, I created UI designs and developed responsive websites based on client requirements. I worked on MVPs, wireframes, and prototypes for various software brands, and implemented websites with attention to visual accuracy, performance, and browser compatibility.

- April 2019 - October 2020

Web Designer and Graphic Designer

Surcos Tours

As a Web, Graphic, and Content Designer at a tourism company, I led a full rebranding project, including logo design, visual identity, and brand voice. I also designed and developed the company's website from scratch, aligning visual and content strategy with the new brand image.

- February 2018 - September 2019

UX/UI Designer and Graphic Designer

Grupo Asesor en Informática S.A.

As a UX/UI Designer at a software development company, I created multiple prototype proposals for institutional clients such as PROCOMER in Costa Rica, tailored to specific functional and technical requirements. I also developed the visual identity for the internal framework Fastwork and designed promotional and graphic materials for IPSUM Consultores, ensuring alignment with each brand's communication goals.
